

- NEW for 2021 -

Sabatti STR Sport rifle

New look for the Sabatti STR Sport precision shooting rifle: new 7075 aluminum chassis, AICS compatible magazine and much more, for a rifle intended to dominate the shooting competitions.

The Sabatti STR Sport bolt-action rifle embodies the long years of Sabatti experience in the manufacture of high-accuracy firearms. The Sabatti STR Sport rifle stands out for the design of the stock and the barrel, as well as for the mix of technology that makes it suited to any kind of long-range sport shooting activities.

The STR Sport rifle features Sabatti own and highly appreciated Blizzard action, with a three-locking lugs bolt head for a fast, short 60-degrees throw. Both the bolt and the receiver are machined out of solid steel billet; the knob is installed on the cocking handle via a 5/16" thread and can be replaced with any similar aftermarket component. The bolt is heat treated, chrome-lined and rectified to reach the desired level of thickness; the process returns a very low level of surface roughness, which couples with the full surface fluting of the bolt body for market-leading levels of smoothness and silence in operation. The new 17-4PH extractor offers superior resistance when used with high pressure loads.

The core of the new Sabatti STR Sport rifle is the new lightweight 7075 aluminum alloy chassis, that has been completely redesigned. The new chassis is available in two variants: with a standard sporting version forearm with M-LOK slots and an Arca-Swiss rail; or with a wide, flat forearm, ideal for long range precision F-Class shooting competitions, with an Anschütz rail and various anchor points for bipods and accessories.

The buttstock of the new STR Sport rifle was likewise redesigned: a non-foldable design, the new Sabatti STR Sport rifle stock is skeletonized to reduce overall weight, while retaining a fully adjustable cheek riser and a *bag-rider* support placed at its bottom-back. Also available an optional stock, with the buttplate fully adjustable in length and height.

The Sabatti STR Sport bolt-action rifle features a cold hammer forged barrel with the award winning MRR Multi-Radial Rifling, providing superior accuracy, no bullet deformation, and easier cleaning. Sabatti MRR premium barrels are more resistant to overheating, last longer and are more accurate than standard Match barrels, providing excellent results even with the most common commercial ammunition loads.

The barrel is 660mm long with a 22mm muzzle diameter, in the STR Sport version; and 710mm long with a 28mm muzzle diameter, in the STR Sport FC version.

The rifle comes with a Picatinny rail, coupled directly to the action, for mounting riflescopes; the trigger set is the Sabatti 3 lever Match one; and the ammunition now feed through a detachable Accuracy International AICS compatible magazine.

TECHNICAL SPECIFICATIONS

Manufacturer	Sabatti S.p.A.
Model	STR Sport - STR Sport FC
Tipology	Bolt-action rifle
Calibers / rifling twists	.308 Winchester (1:11"), 6,5x47 Lapua (1:8"), 6.5 Creedmoor (1.8")
Action	Blizzard – three locking lugs with 60° opening angle
Trigger system	3 lever Match trigger
Safety	Manual safety
Capacity	AICS compatible detachable magazine
Sight systems	Picatinny rail for optics
Barrel	STR Sport: 660mm / 22mm at muzzle, with MRR rifling STR Sport FC: 710mm / 28mm at muzzle, with MRR rifling
Total lenght	116 cm - 121 cm / 45.66" - 47.63"
Weight	5,2 - 6,5 kg / 11.5 - 14.3 lbs
Materials	Steel barrel, action, and receiver; ERGAL-55 lightweight aluminum alloy chassis
Finishes	Satin black finish on barrel and receiver, red or black chassis

Company notes

The Sabatti family is active in the gun industry since little less than 400 years. Passed down from father to son, from generation to generation, all the acquired experiences have not been lost, and are what today provides quality to the Sabatti production.

Sabatti is a leader in the manufacturing of top-class rifle barrels, whose excellent performances make them highly appreciated all over the World, by gun manufactures as well as by the most demanding sport shooters and professionals.

Except for the stocks, all components of every Sabatti gun are manufactured inside the company, using the best available technologies and materials, and a "know-how" which quite few International companies can boast nowadays.
